PlateSafe®

PlateSafe is designed to work in conjunction with the metal Road plate.

Suitable to use in most weather conditions, rain, heat and frosty weather.

Platesafe is unique for noise reduction and also in making metal Road plates safer and more user friendly.

Key benefits of using PlateSafe®

- High visibility yellow colouring highlights the Road plates so motorists are aware of the plate thereby reducing vehicle speeds on approach to the plate.
- More friendly towards motorbikes and bicycles.
- Dramatically reduces the noise generated from traffic crossing the Road plate with less noise from impact.
- Helps hold the Road plate in place when anchored using Tricel fixing pins.
- Re-useable.
- No waste.
- Replaces the need to use temporary tar.
- No clean-up costs.
- No expensive disposal costs.
- Fully recyclable product.
- Suitable to use in all weather conditions, including rain, heat, and frost.
